Students who are illegally occupying Hall Memorial Building, have been repeatedly asked to leave by the University's Department of Public Safety. The dissenters are disrupting classes and the offices in the building.

They refused to move and the D.C. Police may be called in to remove the dissenters.

Order will be restored to the campus so that campus life can resume in safety and security for the students, faculty and staff.

Rumors of student injury are false.

No pepper spray was used.

Is Public Relations telling the truth??
